

THE FIRST 60 MINUTES MATTER

Incident Response & Digital Forensics

Galix leads incident response. Resilience leads digital forensics.

When a cyber incident strikes, speed, coordination and expertise make the difference. Our joint Incident Response and Digital Forensics service helps you prepare, respond and recover — minimising impact and strengthening your long-term resilience.

PREPARE
RESPOND
INVESTIGATE
RECOVER
BE STRONGER

Assess

Review your incident response documentation, governance and operational readiness.

- Incident Response Plans
- Policies & Playbooks
- Business Continuity & Disaster Recovery
- Roles & Responsibilities
- Communication & Escalation Procedures

Test

Validate your organisation's ability to respond through a realistic cyber incident tabletop exercise.

- Detection & Monitoring
- Alert Validation
- Incident Escalation
- Response Coordination
- Decision Making

Respond & Investigate

Coordinate incident response, preserve evidence and support a defensible forensic investigation.

- Evidence Handling
- Chain of Custody
- Evidence Preservation
- Forensic Acquisition & Analysis
- Investigation Reporting

Improve

Receive prioritised recommendations to strengthen your incident response and forensic readiness.

- Executive Reporting
- Gap Analysis
- Prioritised Remediation Plan
- Maturity Benchmarking

Key Benefits

- Identify response gaps before an incident occurs
- Validate your Incident Response capability
- Improve cyber resilience
- Strengthen digital forensic readiness
- Enhance compliance and governance
- Reduce business disruption during cyber incidents

Who Should Consider This?

Organisations that:

- Have an Incident Response Plan but have never tested it
- Need access to incident response or digital forensics expertise
- Must meet regulatory or compliance requirements
- Want confidence that their teams can respond effectively and preserve evidence

What You Will Receive

- Incident Response Maturity Assessment
- Cyber Incident Tabletop Exercise & Findings
- Digital Forensics Readiness Assessment
- Access to Live Incident Response and Forensic Investigation Support
- Prioritised Risk & Gap Analysis
- Executive Findings & Recommendations

Cyber incidents are inevitable.
Being prepared makes the difference.
